Hurontario Light Rail Transit (LRT)

—with Bristol Station next door to Above Condos

The new 18-kilometre (11 miles) Hurontario LRT, which will be named the Hazel McCallion Line when it becomes operational in Fall 2024, will benefit communities across Mississauga and Brampton. Residents will find better, more convenient ways in which to live, work and play. As each city expands with new residents, businesses

and amenities, frequent and reliable transit becomes vital — giving communities the freedom to choose where they want to go, when they want to go. With 19 stops and its own dedicated lane, the Hazel McCallion Line ensures a smooth, fast, convenient ride between Mississauga and Brampton.

Roads and Highways

As the only city in the Greater Toronto Area (GTA) serviced by seven major highways, Mississauga offers fast, convenient access to major destinations in Canada and the USA. As part of the Toronto Region, Mississauga is interconnected by an extensive road network consisting of 587 kilometres (365 miles) of major provincial highway networks and five municipal highways.

QEW	Highway 407
Highway 409	Highway 401
Highway 410	Highway 427
Highway 403	

Trains and Rail

Dundas Connects is a planned development that aims at supporting major improvements including transportation, road maintenance, land use, new developments and the public realm along the Dundas Corridor. The Dundas Corridor is 4-km (2.4 miles) wide and 17-km (10.5 miles) long, stretching from Oakville in the west, to Toronto in the east.

Mississauga, commuters enjoy convenient access to areas far beyond the city.

In fact, Mississauga's Square One GO Bus terminal is the busiest in Canada, which may come as no surprise when considering the city has the second highest local transit ridership per capita in the Greater Toronto Area (after Toronto).

2020	2024
Project Start	Estimated Completion

GO Transit is a key regional public transit service connecting the Greater Golden Horseshoe Region. With so many strategically located GO stations in

Excluding Toronto's Union Station, Mississauga also generates the most GO Train ridership of any municipality, with 21,000 passengers per day.

454 km Total Cycling Network

The City envisions a comfortable, connected and convenient cycling network that includes separated bike lanes, cycle tracks, multi-use trails, conventional bike lanes and shared routes.

Fostering Digital Inclusion

Mississauga offers free wireless internet access in community facilities and public spaces, with many more locations under review.

Largest Airport in Canada

Mississauga is home to Canada's largest airport. Serving over 49 million passengers annually, Toronto Pearson International Airport (Pearson Airport) is a major global hub, providing Canadians with a gateway to the world. With over 330,000 surrounding jobs, the airport is home to the second largest employment zone in the country.

Pearson Airport is the fourth-largest global entry point into the U.S. It boasts flights to 210 destinations and more than 22 million trans-border passengers annually. Overall, Pearson Airport ranks second among North American airports for international connectivity.

the state of rentals in Mississauga

Mississauga has been experiencing the tight market conditions that are pushing average rents back to their pre-pandemic peak. With the number of listings dropping by a substantial annual rate, renters have been competing for the limited stock, pushing the market into double-digit rent increases.

Additionally, we will be seeing a record level of immigration within the next few years – coinciding with an increase of non-permanent residents and students. All of these groups depend heavily on the rental market and, as such, will be looking to Mississauga’s investor-owned condominium apartments in the near future.

RIOCAN LIVING

At RioCan Living, we believe building better places to live takes more than bricks and mortar. It means looking at communities and seeing the full picture; what they are, what they could be, and what they need to get there. We make these visions a reality – adding to the story and legacy of each community we engage with.

For us, living is not just about where you live, but how you live. A central location with easy access to commuter routes is essential, but so too is access to friendship

and community; to convenient retail and entertainment amenities; to green spaces and pedestrian-friendly streetscapes; all of the things that link people with a place and shape their sense of belonging.

As builders, designers, property owners, landlords and community stewards we're creating prosperous communities where residents, retailers and service providers support one another to build richer and more rewarding lives. To us, that's what living is all about.
